

## **National Group Award Winner**

### **Tansley House Care Home, Matlock**

Cecelia Harris (First Taste) – We are at Tansley House. Today, we are doing an inter-generational project with a group of school children. Bev's the manager, Carole is the deputy and Kirsten is a senior but they always on duty and they always participate in all the sessions.

Bev Windle (Tansley House Care Home) – We need to keep them motivated, that the whole point. Keep their confidence, keep them interested in life and that's why we're always looking for something different.

Cecelia Harris (First Taste) – They've done things like person centred planning, games and activities days, they've never refused any training that we've offered.

Bev Windle (Tansley House Care Home) – We just want more, more and more.

Kirsten Richards (Tansley House Care Home) – It teaches us all new things that we've not done before as well, doesn't it?

Carole Roosa (Tansley House Care Home) – We want to do something that get the residents excited. We've seen a big improvement in their health, their sleeping pattern and they'll be talking about it for weeks and weeks.

Resident at Tansley House 1 – I do yes, I do like it very much.

Resident at Tansley House 2 – It's a bit of exercise for us.

Resident at Tansley House 3 – It's put some life into us and make us want to live.
